

## Part Contents

|  |     |
|--|-----|
| ■ Windows Forms in the IDE                 | 321 |
| Creating a Windows Forms Library in C#     | 323 |
| Proposed Main Form Layout                  | 324 |
| IDE Settings                               | 325 |
| Form Layout                                | 326 |
| <i>Form Properties</i>                     | 326 |
| Build and Review the Live Form             | 328 |
| Containers for Constraining Control Layout | 329 |
| Adding Button Controls                     | 331 |
| Adding a RichTextbox for Status Messages   | 332 |
| ToolTips                                   | 333 |
| File Dialogues                             | 334 |
| Selection & Execution Parameters           | 335 |
| <i>Parameter Group-boxes</i>               | 337 |
| <i>File Selection Controls</i>             | 338 |
| <i>Image Buttons</i>                       | 338 |
| <i>File Selection Controls - Revisited</i> | 339 |
| <i>Download Region File Parameters</i>     | 340 |
| <i>Executing the RESX Embedding</i>        | 343 |
| Tab Order                                  | 344 |
| An Xml Node Viewer Windows Form            | 345 |
| What's in a Windows Forms Assembly?        | 346 |

|  |            |
|--|------------|
| A Word on Control Accessibility . . . . .                | 348        |
| Opening a Windows Form with F# . . . . .                 | 351        |
| ■ <b>More F# Coding Prerequisites</b> . . . . .          | <b>355</b> |
| Application Structure Overview . . . . .                 | 355        |
| Generically typed functions . . . . .                    | 358        |
| Parsing a CSV format string into Columns . . . . .       | 361        |
| Converting a String Array to a Tuple . . . . .           | 373        |
| Validating a string as a web-based file source . . . . . | 375        |
| <i>Try and finally</i> . . . . .                         | 378        |
| <i>The Http HEAD Request</i> . . . . .                   | 378        |
| Discriminated Unions . . . . .                           | 380        |
| Single-case Discriminated Unions . . . . .               | 382        |
| <i>Unique Identifiers</i> . . . . .                      | 383        |
| <i>A Type for a Web-based File</i> . . . . .             | 385        |
| Parsing Web-based files . . . . .                        | 387        |
| <i>Generic Type Constraints</i> . . . . .                | 388        |
| <i>Executing the Download and Parse</i> . . . . .        | 389        |
| File Mime Type . . . . .                                 | 390        |
| File Encoding . . . . .                                  | 393        |
| Signature Files & Visibility . . . . .                   | 394        |
| ■ <b>Driving Windows Forms via F#</b> . . . . .          | <b>399</b> |
| Basic Form Instantiation . . . . .                       | 399        |
| <i>Class Instantiation</i> . . . . .                     | 402        |
| <i>Displaying the Initialised Form</i> . . . . .         | 403        |
| Managing Validation . . . . .                            | 404        |
| <i>Recursive Functions</i> . . . . .                     | 406        |
| <i>Tail Recursion</i> . . . . .                          | 407        |
| Casting . . . . .  | 408        |
| Boxing - down-casting . . . . .                          | 410        |
| Unboxing - up-casting . . . . .                          | 412        |
| Managing Error Control . . . . .                         | 414        |

|  |     |
|--|-----|
| <i>Highlighting Errors</i> . . . . .                   | 416 |
| AddFlags Class Structure/Elements . . . . .            | 417 |
| <i>Properties and Backing fields</i> . . . . .         | 418 |
| Wiring up Control Events . . . . .                     | 420 |
| Class Instantiation . . . . .                          | 423 |
| Validation Associated Class Members . . . . .          | 424 |
| Validation Event Handler Member Delegates . . . . .    | 425 |
| <i>Validating Column Number Selection</i> . . . . .    | 425 |
| <i>Button Click Validation Delegates</i> . . . . .     | 427 |
| Verifying the ISO File Url . . . . .                   | 427 |
| Selecting a Target RESX File . . . . .                 | 429 |
| Selecting Flag Files . . . . .                         | 431 |
| Button Click Execution Delegates . . . . .             | 438 |
| <i>Executing the Resource Merge</i> . . . . .          | 438 |
| Downloading the Region CSV File . . . . .              | 439 |
| Merging the Microsoft and Downloaded Regions . . . . . | 440 |
| Merging Flag Images into the RESX File . . . . .       | 442 |
| Using the XmlViewer Form . . . . .                     | 442 |
| Saving Changes to the Target RESX File . . . . .       | 445 |
| ■ <b>Summary</b> . . . . .                             | 447 |

## Accompanying Videos

|   |     |
|---|-----|
| 87. Creating a Solution for Windows Forms usage . . . . .   | 321 |
| 88. IDE Settings. . . . .                                   | 325 |
| 89. Form properties. . . . .                                | 327 |
| 90. Using the Panel container control. . . . .              | 329 |
| 91. Adding Buttons. . . . .                                 | 332 |
| 92. Sizing & Positioning a <b>GroupBox</b> control. . . . . | 333 |
| 93. Adding a <b>ToolTip</b> control. . . . .                | 333 |
| 94. Open File Dialogues. . . . .                            | 335 |

|  |     |
|--|-----|
| 95. Target & Source files selection controls - Parts I & II. . . . .                 | 339 |
| 96. The IDE Tab Order tool. . . . .  | 344 |
| 97. An overview of program structure. . . . .  | 356 |
| 98. Basic CSV column mapping of a string - Parts I & II. . . . .                     | 369 |
| 99. Segmenting a CSV parsed string. . . . .  | 372 |
| 100. Converting an array to a tuple. . . . .   | 374 |
| 101. Validating a URL as a potential CSV file - Parts I & II. . . . .                | 379 |
| 102. Strongly typing a Web-based file with a single case union - Parts I & II.       | 386 |
| 103. A generalised generic function for downloading CSV files - Parts I & II.        | 389 |
| 104. Mime type & file encoding - Parts I & II. . . . .                               | 394 |
| 105. Signature files - Parts I & II. . . . .   | 396 |
| 106. AddFlags - Viewing the live form. . . . .                                       | 404 |
| 107. Validation mechanisms - CausesValidation and Tag control. . . . .               | 406 |
| 108. Tail recursion for setting CausesValidation. . . . .                            | 408 |
| 109. Boxing and down-casting - Parts I & II. . . . .                                 | 411 |
| 110. Unboxing and up-casting. . . . .  | 413 |
| 111. Outputting error messages rather than doing an <b>Abend.Terminate</b> . . . . . | 416 |
| 112. Highlighting controls in error. . . . .   | 416 |
| 113. Overview of Class Structure and Layout. . . . .                                 | 419 |
| 114. Wiring up controls to events. . . . .   | 422 |
| 115. SetControlState & SetButtonState. . . . .                                       | 425 |
| 116. Validating Column Numbers. . . . .  | 426 |
| 117. Button Click events overview. . . . .   | 427 |
| 118. Validating the ISO File Url. . . . .  | 428 |
| 119. Validating the target RESX File. . . . .  | 430 |
| 120. Validating Flag Files - Overview. . . . .                                       | 432 |
| 121. The ResourceParser Helper function. . . . .                                     | 433 |
| 122. FileResourceInfo record type. . . . .   | 435 |
| 123. Collating errors from the ResourceParser. . . . .                               | 437 |
| 124. Finishing off flag selection validation. . . . .                                | 437 |

---

|  |     |
|--|-----|
| 125. Downloading and parsing the CSV File. . . . .     | 439 |
| 126. Merging downloaded and Microsoft regions. . . . . | 441 |
| 127. Finishing off the RESX merge. . . . .             | 442 |
| 128. Running the Xml Viewer - Parts I & II. . . . .    | 444 |
| 129. Saving the modified RESX resources. . . . .       | 445 |
